IS IT LOSING ITS SPIRITUALITY?

The Advocate Discusses the Present Condition of the Methodist Church.

The Christian Advocate, of this city, devotes a column of editorial space this a discussion of the present conweek to a discussion of the present condition of Methodism, as viewed from the standpoint of the primitive Wesleyan type, which type, the paper declares, embodies her distinctive character and her spiritual power. As the church departs from this type she becomes shorn of this character and this power. And the question the Advocate is trying to solve is whether or not such a departure, that will result in mere formalism in worship, and that will be otherwise disastrous in its effects, is even now slowly being made. "Is she (the church) losing any of that spirituality and earnestness?" the Advocate queries, "Is she falling to any extent into that formalism against which she once invelghed? These are questions that claim our serious consideration. How seldom do we hear now in a Methodist church those heartfelt responses that in former times were such an inspiration to the preacher and gave increased effect to his pulpit utterances? Nor in many instances is the singing, that important part of worship, as devout or as general as formerly. The choir, instead of confiring itself to its proper function in leading the congregation in singing, is too apt to monopolize the music and make it a mere artistic performance. We ask with our contemporary: "Why should the amens die out or congregational singing be abandoned?" The Psalmist, after pronouncing one of his glowing benedictions, calls upon all the people to say 'amen.' dition of Methodism, as viewed from the calls upon all the people to say 'amon.'
We have no doubt the Jewish temple
rang with the responsive echoes. Surely,
in this latter day of the 'administration
of the spirit,' a repetition of this ancient
custom would not be out of place."

THE PURE ELECTION LAW

When Do Acts Passed at Present Ex-

tra Session of Legislature Take Effect. Senator W. P. Barksdale's attention having been called to Senator William B. McIlwaine's views as to the Barksdale pure election law being as yet inoperative, published in yesterday's issue of The Times-Dispatch, called at the office of the Attorney-General to inquire whether that officer had given an opinion

upon the question.

He learned that in response to a mest from a general officer of the State government, Attorney-General Anderson had on the 8th of July last, given a written opinion to the effect that an act written opinion to the effect that an act passed by the General Assembly at its extra session of 1902-703, in which there was no direction as to when such act would take effect, went into operation on the lat of July, 1903. Pursuant to the provisions of section 19 of the schedule to the Constitution, and to the general staints of the State on the subject.

At the request of Sensor Barksdale the Attorney-General furnished him a copy

"Dear Sir,—In reply to your note of inquiry of the 6th instant, I have the honor to say that, in my opinion, an act of the General Assembly passed during the extra session of 1902-03, which omits to prescribe at what time it shall take effect, went into effect upon the lat of July, 1903.

the time when such acts shall take effect, and leaves them to be controlled in that regard by the will of the General Assembly as expressed in each act, or by the provisions of the general law, Virnina Code of 1857, section 4.

"Very truly yours,
"WILLIAM A. ANDERSON,"
It will be seen that the above letter was written nearly three months agot that it makes no mention of the pure election law, but it does apply to that statute, and to all other acts of the present Legislature, which are silent as to when they shall respectively take effect.

CLOSE TO NEW YORK'S

Entries in Harness Class the Largest Ever Made: Fickets in Great Demand.

In Great Demidne.

All indications point to the fact that the Richmond Horse Show will fall this year little short of the big one in New York. Already the entries are far larger than those of last year, and Secretary Warthen expects to be busy until this evening booking entries. Many will come in late to-day, and as a result, will not be booked until Monday, and it is not certain yet what the total number will be.

Secretary Warthen sald yesterday that all who have had seats held for them would do well to take them up at once, as the demand is an great that seats cannot be held in justice to those who have already taken theirs up, and those who wish to secure Feats.

The harness class will probably be the largest ever exhibited in this country.
